### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Martin G. Belisaario on Tuesday July 5, 2005.

The application has been amended as follows:

A] Claims 16-24 have been cancelled.

B] In the Abstract line 1, "comprises" has been replaced with --having--.

2. The following is an examiner's statement of reasons for allowance:

Claim 1 has been found to be allowable over the prior art of record because the prior art fails to teach or suggest a food processor comprising: a bowl removably securable to the base housing and including an inner surface area; a lid having an inner surface area, the lid being removably securable to the bowl to create a processing chamber between the inner surface areas of the bowl and lid in an assembled position; and a tray removably securable within the processing chamber, the tray being manually rotatable relative to the bowl and lid independent of the drive shaft and tool in the assembled position, in combination with the remaining limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### REMARKS

3. The above examiner amendment is to cancel the nonelected invention.
4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-15, drawn to a food processor, classified in class 241, subclass 92.
  - II. Claims 16-24, drawn to a combination of bowl and internal tray, classified in class 220, subclass unknown.

The inventions are distinct, each from the other because of the following reasons:

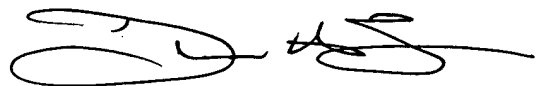

5. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as serving dish. See MPEP § 806.05(d).
6. During a telephone conversation with Mr. Martin G. Belisaario on June 23, 2005 a provisional election was made without traverse to prosecute the invention of group I, claims 1-15. Affirmation of this election must be made by applicant in replying to this Office action. Claims 16-24 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.
7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Faye Francis whose telephone number is 571-272-4423. The examiner can normally be reached on M-F 6:30-3:00.
